ISSN 0022-460X

*Volume 134, No. 1, 8 October 1989*

KANT, T. and MALLIKARJUNA, Vibrations of unsymmetrically laminated plates analyzed by using a higher order theory with a $C^0$ finite element formulation	1
NIE, Q., NIEH, C. D., CAI, J. and ZHANG, M., The natural frequencies of coupled in-line towers	17
BARDELL, N. S. and MEAD, D. J., Free vibration of an orthogonally stiffened cylindrical shell, Part I: Discrete line simple supports	29
BARDELL, N. S. and MEAD, D. J., Free vibration of an orthogonally stiffened cylindrical shell, Part II: Discrete general stiffeners	55
LUONGO, A., REGÀ, G. and VESTRONI, F., Non-resonant non-planar free motions of inextensional non-compact beams	73
KHULIEF, Y. A., Vibration frequencies of a rotating tapered beam with end mass	87
NAGAYA, K., SUN, J. and POLTORAK, K., Transient response of a bent boom of variable cross-section with link joints subjected to general transient loads	99
FIROOZIAN, R. and STANWAY, R., Design and application of a finite element package for modelling turbomachinery vibrations	115
SATO, K., Free vibrations of a composite elliptical membrane consisting of confocal elliptical parts and having an elastically restrained boundary	139
CUNNIFF, P. F. and O'HARA, G. J., A procedure for generating shock design values	155
MILES, R. N., An approximate method for modal analysis of finite periodic structures	165

*Letters to the Editor*

BERGMAN, L. A. and HYATT, J. E., Green functions for transversely vibrating uniform Euler-Bernoulli beams subject to constant axial preload	175
SPENDER, JR., B. F. and BERGMAN, L. A., Comments on "First-passage time probability of non-linear stochastic systems by generalized cell mapping method"	181
SUN, J. Q. and HSU, C. S., Authors' reply	186
MICKENS, R. E., Calculation of transient behaviour for a non-linear singular oscillator equation	187
SANZI, H. C., BERGMANN, A., ELVIRA, G. F. and LAURA, P. A. A., Numerical experiments on the determination of natural frequencies of vibrating circular plates with stepped thickness over a concentric circular region	190

*Volume 134, No. 2, 22 October 1989*

KOUNADIS, A. N., RAFTOYIANNIS, J. and MALLIS, J., Dynamic buckling of an arch model under impact loading	193
MICHALKE, A., On the propagation of sound generated in a pipe of circular cross-section with uniform mean flow	203

DI NISI, J. and MUZET, A., Cardiovascular response to noise in type A and type B female subjects: effect of the ovarian cycle . . . . .	235
TADJBAKHS, I. J. and ANDERSON, G. L., Reduction of flexural vibrations by damping of axial motions . . . . .	247
COMPARIN, R. J. and SINGH, R., Non-linear frequency response characteristics of an impact pair . . . . .	259
BAPAT, A. V. and SURYANARAYAN, S., Free vibrations of rectangular plates with interior point supports . . . . .	291
NATSIAS, S., Periodic response and stability of oscillators with symmetric trilinear restoring force . . . . .	315
DIAZ BEJARANO, J. and MARTIN SANCHEZ, A., Generalized Fourier series for non-linear systems . . . . .	333
RAMAMURTI, V. and ANANTARAMAN, K. V., Two-plane in-situ balancing . . . . .	343

*Letters to the Editor*

NAGESWARA RAO, B. and VENKATESWARA RAO, G., Large amplitude vibrations of clamped-free and free-free uniform beams . . . . .	353
BERT, C. W., Effect of bending preload on flexural vibration of a bimodular tube . . . . .	359
JIAWEI LU, CROCKER, M. J. and RAJU, P. K., Active vibration control using wave control concepts . . . . .	364

*Volume 134, No. 3, 8 November 1989*

MAIDANIK, G. and DICKEY, J., Significance of modifications in the expression for the mechanical surface impedance of panels at high wavenumbers . . . . .	369
LAURA, P. A. A. and ROSSI, R. E., On the relative accuracy and relative difficulties of vibrations and buckling problems of structural elements . . . . .	381
HASHIMOTO, K. and YOKOTA, M., The two-dimensional Helmholtz equation $-\Delta u = \lambda u$ for a certain class of multi-connected regions . . . . .	389
KIM, C. S. and DICKINSON, S. M., On the free, transverse vibration of annular and circular, thin, sectorial plates subject to certain complicating effects . . . . .	407
BRAVO YUSTE, S. and MARTÍN SÁNCHEZ, A., A weighted mean-square method of "Cubication" for non-linear oscillators . . . . .	423
LEISSA, A. W., Closed form exact solutions for the steady state vibrations of continuous systems subjected to distributed exciting forces . . . . .	435
CHARNLEY, T., PERRIN, R., MOHANAN, V. and BANU, H., Vibrations of thin rings of rectangular cross-section . . . . .	455
MECHEL, F. P., Iterative solutions for finite-size absorbers . . . . .	489
HILLER, M. W., BRYANT, M. D. and UMEGAKI, J., Attenuation and transformation of vibration through active control of magnetostrictive terfenol . . . . .	507

*Letters to the Editor*

GURGOZE, M., Approximate determination of fundamental frequencies of cantilever beams with resilient roots . . . . .	521
JENVEY, P. L., Reduced sound power from aeroacoustic resonances in small enclosed jet flows . . . . .	526
FEARN, R. W. and HANSON, D. R., Hearing levels of young subjects exposed to industrial noise . . . . .	533
FRID, A., Transient fluid vibration in piping systems including rigid-body modes—choice of a quasi-static solution to be used in modal superposition . . . . .	535
INDEX TO VOLUME 134 . . . . .	541
